EDUCATION

Northeastern University, Boston, MA   *August 2019 - May 2023*
Khoury College of Computer Sciences
Bachelor of Science in Computer Science, *Summa Cum Laude*
- Honors: 3.64 GPA | Dean's List | Dean's Scholarship
- Activities: WRBB Student Radio Host

TECHNICAL KNOWLEDGE

- **Containerization**: Kubernetes | Docker | Buildah | Podman | AKS | GCP
- **CI/CD**: Azure DevOps | Jenkins | ArgoCD | FluxCD | AWX
- **IaC**: Terraform | Helm | Ansible | Azure Resource Manager
- **SRE**: Prometheus | OpenTelemetry | Datadog
- **Operating Systems**: RHEL | Debian | Ubuntu Server | MacOS | Windows

WORK EXPERIENCE

Wolters Kluwer
DevOps Engineer, Remote   *April 2024 – Present*
Associate DevOps Engineer, Remote   *June 2023 – April 2024*
DevOps Engineering Intern, Remote   *January 2022 – December 2022*
- Developed an internal cloud platform to customize AKS cluster deployments in Terraform and deployed this solution across 5 business units.

- Maintained and improved 25 separate AKS clusters across production and development environments, working with tools such as ArgoCD, Ansible, Terraform, Kubectl, Helm, and more.

- Architected observability and monitoring stack leveraging OpenTelemetry and Datadog APM, automating Helm deployments across 4 environments and auto-instrumenting existing applications.

- Lead OS upgrade project, migrating 12 VM's and associated applications from RHEL 7 to RHEL 8, establishing modern security standards

Charles River Development
IT Co-op, Burlington, MA   *January 2021 – August 2021*
- Revamped the new-hire account creation process through Powershell scripting, developing an automated process to create accounts through Excel Spreadsheet input.

- Identified and addressed issues regarding integral company systems, assisting 100+ unique users and resolving 400+ tickets.

- Worked closely with network and desktop support teams to improve software deployment processes.
